

FAQ "TaDo"

- What is "TaDo"?

"TaDo" is an Alexa skill designed to help Alzheimer's patients, their relatives and caretakers organize and document everyday care.

- How can "TaDo" help me?

"TaDo" can help you, a relative or caretaker, by providing quick and easy organization through vocal comments.

- For whom is "TaDo" suitable?

"TaDo" is aimed at caregivers and relatives of Alzheimer's patients.

- How much does "TaDo" cost?

"TaDo" is free of charge.

- How does "TaDo" work?

You can create checklists that have to be worked through at certain intervals (e.g. daily). Then items that have been worked through can be "checked off" and tasks that still need to be done can be output.

- What do I need?

- An Amazon Alexa enabled device
- An Amazon account
- A few minutes to set the skill up

- How do I get this skill?

From the Amazon Alexa Skill Store

- Where can I learn more?

On the skill's website at tado.cs.hm.edu

- Who can I contact if I have a problem?

Contact one of the contact options listed on the website

- How does "TaDo" differ from other checklist/reminder skills?

"TaDo" is specifically designed for Alzheimer's care. For example, lists for several patients can be managed with one device.

- Are my data secure?

Yes, the data is stored in encrypted form and is located in a very well-secured data centre at Amazon.

- What is stored?

"TaDo" only stores the data that is necessary for the documentation and organization of the everyday care.

- Can I also use "TaDo" offline?

No, an internet connection is required to use Alexa and therefore also this skill.

- Can several people use "TaDo" at the same time?

In "TaDo", everyday life can be organized for more than one person at a time.

- Can I print the lists?

"TaDo" offers users the option of viewing and printing lists via a web app.
